PRODUCER BOOTCAMP

STARTING DATE: 26 NOVEMBER 2019

This 6 weeks (12 classes) course for beginners offers an overview of all the essential skills to get started as an electronic music producer. Start from zero, and within 6 weeks you'll be finishing your first tracks!

The bootcamp offers an overview of all the basic skills to get started as an electronic music producer. Classes are Tuesday & Thursday, 18h30-20h30, in the heart of Brussels.

Get familiar with the workflow of electronic music production thanks to the underdog "bootcamp roadmap". Follow the roadmap to completing a full track, and then adapt that roadmap to your own needs afterwards.

Develop your ear to listen with a technical perspective. Learn to solve the most common technical problems to ensure your productions shine.

Learn the basic musical concepts you need to start writing effective basslines, harmony and melodies.

2 individual coaching sessions are included in the price, to help design your production goals and learning journey.

Requirements: No prior knowledge necessary. This is a course for absolute beginners. Classes are taught using Ableton Live (the [intro version](#) is enough), but the concepts also apply to other software.

ABOUT UNDERDOG MUSIC SCHOOL

Electronic music is everywhere. On the radio, in the clubs, at the festivals, and so many of us would love to give it a try to make some. After all, the barriers to trying it out have never been so low! A laptop and a copy of Ableton Live could be enough to get you started, but where to begin...

Underdog classes are made for exactly this reason. Step by step, you learn a structure for making electronic music, and once you master the basic principles, you get coached to develop your artistic potential. The technical side, and the emotional side, all without needing to go all-in.

If you think you might like to know more, you can start with the 6 week bootcamp to understand what it's all about, and whether it's as sexy as you were hoping it would be. Once hooked, there is the 12 week electronic music deep dive, after which you'll be consistently finishing tracks, and you'll be starting to think about the more artistic aspects that will help you stand out and get you up on stage.

Underdog classes are taught in the center of Brussels, because a face to face contact is the best way to help you figure out what knowledge you're missing. Learning goes way faster if you have a mentoring relationship with your teacher. The classes are in the evening, so you can combine them with your work or studies. Reach out to us with any questions if you want to know more!
